

Green spaces - great places

What's going on?

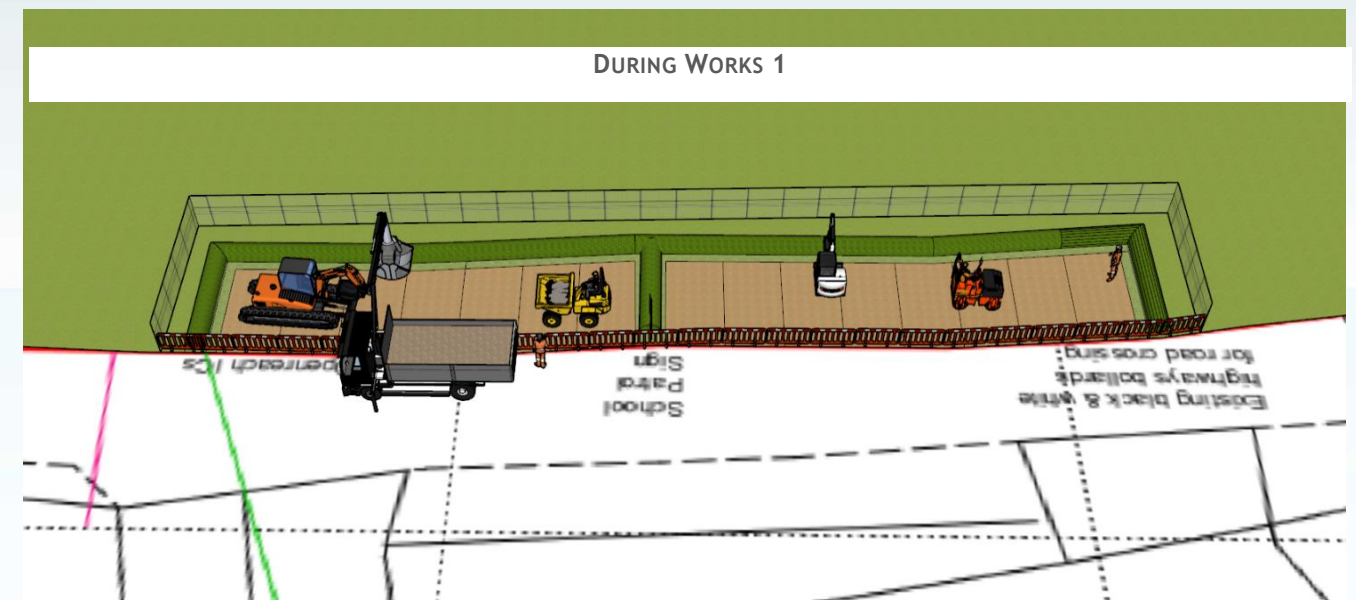

We are undertaking works to improve Butts Green Car Parking Area creating car only spaces for up to 15 cars, surrounded by a wildflower seeded bund.

We selected Southampton City Council to do this work which will start on **Monday 4th August**. We expect the works to take around two to three weeks to complete.

We need to close the car park area and fence this off while the works are undertaken to keep everyone safe

Our Apologies for any inconvenience

Lockerley Parish Council
